Paris  
France

Passionate web engineer, I like (m)aking things to turn complexity into simplicity.

In this disruptive world, I am really looking forward to doing something that I am really proud.

Why this format? Because I really believe a resume can say a thousand words, but an infographic can explain them much, much better.

## EDUCATION

2008 2009 2010 2011 2012 2013 2014

Bachelor of Applied Science  
University of Poitiers

Master of Computer Science  
University of Technologies of Compiègne

## EXPERIENCE

### SNOWITE 09/2012 - 02/2013 Lille - FR
